PHYSICAL THERAPY SUPPLIES *and* ACCESSORIES

Catalog No. 25
October, 1930

H. G. FISCHER & COMPANY^Y, Inc.
Physical Therapy Headquarters
2323-37 Wabansia Avenue
Chicago, Illinois

Foreword

IN presenting this, the 25th edition of our Accessory Catalog, we wish to call special attention to the many additions and changes that have been made. This catalog supersedes all former issues. It shows our full line of accessories, and renders obsolete all former illustrations, prices and description.

We believe that our successful growth has been largely due to the rigid policies which we adopted at the outset—up-to-date manufacturing equipment, fair selling prices, guaranteed shipments, an adequate Service Department, and the ever present desire to “play square.”

How to Order Always use a separate sheet on which to write your order, and write it on *one* side only. *Avoid* including it in the wording of your letter. This hastens the correct filling of your order. Use catalog numbers and write plainly, and when ordering by telegraph use *Code* words as they designate to us exactly what is desired, and save you expense in the message as well.

State clearly whether your machine is to be operated on the Direct or Alternating Current. If on D. C., give Voltage; if on Alternating, give Voltage and Cycle. Obtain this information from a reliable source; preferably from your electric power station.

When order does not give shipping instructions we will send via the most direct route. Articles of light weight will be sent by Parcel Post to expedite delivery wherever possible.

Damage to Goods in Transit Our responsibility ceases when goods are receipted for by the express freight carrier, agent or Post Office, and we cannot be held responsible for breakage during transit, and if claim has to be filed for damaged goods, notify us immediately that proper claim may be entered.

Return of goods by parcel post should always be insured so the shipper is protected in case parcels are lost.

As soon as it is found that goods are received in a damaged condition the carrier's agent should at once be notified and have the damaged goods inspected.

Neglect in complying with this rule places the responsibility entirely with the consignee in case claim is refused.

Guarantee

Any defects in our apparatus that may develop within six (6) months from date of shipment under normal and proper use, due to faulty material, imperfect insulation, or careless workmanship, will be repaired or replaced at our option and our expense, provided such apparatus is delivered *prepaid* to our factory.

For repairs or replacements during the next twelve (12) months, we will charge only actual cost to cover, and after this period our service and our attention are to be called on when required, with the understanding that charges for overhauling "Fischer" apparatus will always remain as near actual cost as possible. We do not maintain a repair department for profit — this department is entirely for your service.

We will not assume any liability for work done by others, without our consent in writing, nor for defects from improper storage.

We will not assume any liability for breakage of glassware, lamps, or X-ray plates, nor for deterioration of rubber goods, X-ray films or any perishable goods. We can but use the best materials obtainable.

Rotary converters, meters, and motors not manufactured by us do not carry our guarantee, but are backed up by the guarantee of the makers.

Return of Merchandise

Crediting for return of goods ordered in error or on account of dissatisfaction on receipt has become a serious factor of expense, and is a problem difficult of solution. In justice to our customers, and to ourselves we have adopted the following, governing such returns:

No merchandise will be returnable for credit after having been in customer's possession fifteen (15) days or more.

No merchandise will be returnable for credit except upon written request of purchaser, and then only with our consent.

All merchandise must be returned *prepaid*.

No merchandise will be accepted unless returned in salable condition.

All merchandise returned, whether for repairs or for credit, must be carefully packed, and all goods over a \$2.00 valuation should be insured.

Cabinets or Portables returned for repairs or overhauling should be stripped of all accessories, unless such accessories are also to be gone over. Loose accessories always mean danger or further damage to your equipment in shipping. We cannot be held responsible for breakage or damages due to improper packing.

And last, but very important nevertheless, *never* fail to place *your name and address in and on* the box or parcel when shipping to us.

ACCESSORIES AND SUPPLIES

Prices All prices are figured F. O. B. Chicago. The prices quoted in this catalog on all our goods are as low as it is possible to make them and still be consistent with the quality of the materials and high grade of workmanship used in their construction.

All orders for \$1.00 or under should be accompanied with stamps, money order or check.

Our minimum billing for goods shipped is 50c.

Our prices are subject to change without notice.

Terms Retail purchasers having an established credit with us may discount their bills in ten days, or they will be considered net and due in thirty days.

Our goods are also sold on the deferred payment plan. We shall be glad to make quotations to reliable persons, and ask that you write us if interested.

New Accounts We earnestly solicit new accounts, but purchasers will appreciate the necessity of supplying satisfactory references. The name of the bank carrying your account, or some Chicago firm with which you have transacted former business, is usually sufficient.

NOTICE!

Illustrations herewith are not binding as to details, in view of constant improvements, and the goods supplied you may differ slightly in appearance. However, when your order is received, the very latest model will always be forwarded. Prices quoted are subject to change without notice.

The Fischer Flexible Mesh Electrodes

The most flexible and convenient ALL-METAL electrode ever designed.

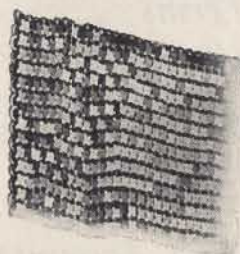

Fits any part of the body like a glove, regardless of shape or contour.

Composed of a series of flat links of German silver, they are flexible, practically indestructible, easily sterilized, and form an almost continual flat surface to be applied to the skin.

Application Mesh Electrode

No.		Code		Price
843	3" wide	Sabbot	Per lineal inch,	\$0.20
844	6" wide	Safrol	" " "	.30
870	8" wide	Sagger	" " "	.40
872	12" wide	Sailer	" " "	.60

Section of Electrode, Showing Exact Size of Links.

(Will be cut to any lengths from these widths, to order. A cutting charge of 15c will be added for lengths under 10 inches.)

No. 876

Fischer Improved Diathermy Paste

No. 906

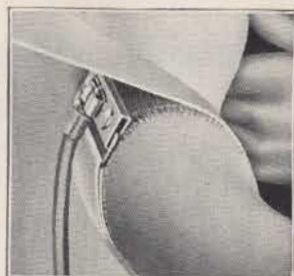

No. 907

Convenient, always ready.

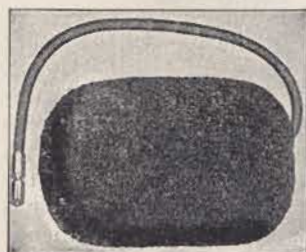

No.		Code	Price
876	In handy collapsible 10 oz. tube.....	Diasop	\$0.80
906	16 oz. opalite jar.....	Votive	1.00
907	16 oz. refill for jar, in wax paper carton.....	Vowels	.90

Cuff or Belt Method Diathermy Application.

These are strips of German Silver Mesh, 3 inches wide and from 12 to 44 inches long. Very convenient and handy, and once used will be found indispensable. Bandage not included.

No.		Code	Price
900	Mesh Cuff and Clamp—3"x12".....	<i>Nephew</i>	\$3.25
901	Mesh Cuff and Clamp—3"x16".....	<i>Neptun</i>	4.50
902	Mesh Cuff and Clamp—3"x20".....	<i>Nereid</i>	5.00
903	Mesh Cuff and Clamp—3"x24".....	<i>Neroli</i>	5.30
904	Mesh Belt and Clamp, 3x36 inches.....	<i>Window</i>	7.15
905	Mesh Belt and Clamp, 3x44 inches.....	<i>Winged</i>	8.15

Sponge Pad Electrode

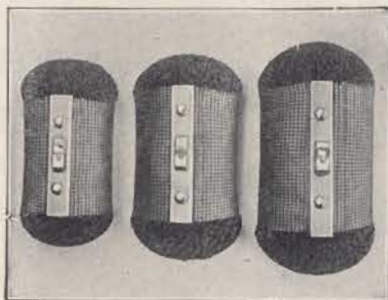

Lay this pad in your tray or pan of salt water, and your patient will not complain of hot spots when placing hand or foot down for contact.

No.	Code	Price
886	<i>Nether</i>	\$2.25

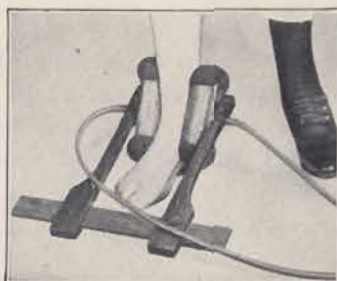

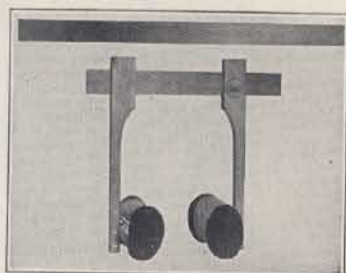

Mesh Electrodes With Sponge Rubber Pads

The Sponge Rubber padding may be washed and always kept clean. It is very soft, and conforms well to any uneven surface. Stocked in three sizes:

No.	Code	Price
891	Sponge Mesh Electrode—3"x3½"..... <i>Nemean</i>	\$3.40
893	Sponge Mesh Electrode—4"x4½"..... <i>Neogae</i>	4.30
894	Sponge Mesh Electrode—4½"x5"..... <i>Neolgy</i>	4.85
896	Sponge pad, only, 3x3½"..... <i>Weaner</i>	.40
897	Sponge pad, only, 4x4½"..... <i>Wecapon</i>	.75
898	Sponge pad, only, 4½"x5"..... <i>Watery</i>	\$1.10

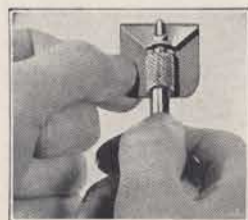

The Universal Diathermy Clamp Electrode

Applied and removed in an instant—may be used on practically any part of the body. All of the various sponge mesh electrodes described on page 7 are interchangeable on this device.

No.		Code	Price
929	Universal Diathermy Clamp, with 3-in. sponges.....	<i>Smacla</i>	\$11.75
930	The Universal Diathermy Clamp Electrode.....	<i>Uclamp</i>	13.00

Metal Connector For Mesh Electrodes

A simple device to fit the No. 1330 Fischer Diathermy Cords. Made of spring brass, heavily nickel-plated. Cord tip cannot come loose when once snapped in place. The contact is flat, but there are several small teeth protruding for engaging the surface of the electrode to prevent slipping. On the limbs this device should be held in place with our No. 854 Elastic Bandage; on the body, with a sandbag.

No.		Code	Price
851	Metal Connector	<i>Mescon</i>	\$0.10

Fischer Multiple Cord Connector

Used when two, three or even four cord connections are desirable from one terminal.

Catalog No. 865

The small end tip is fastened into the proper binding post on your machine, and you may carry as many cords from it as desired.

No.		Code	Price
865	Multiple Connector 5-Wire.....	<i>Sable</i>	\$1.50
866	Multiple Connector 3-Wire.....	<i>Sabin</i>	1.00

ACCESSORIES AND SUPPLIES

Sandbags

No. 880

Made of tough linen fabric. The end, or sand pockets are of the same size and capacity regardless of the length of the whole, and are about half filled with sand. This leaves the assembly very flexible and adaptable.

When the bag is placed over the patient the flat band only bears on the electrode—the weights hang down at the sides. The longer pads are made to hang over the side of the treatment table or cot.

No.		Code	Price
880	5" wide by 15" long.....	<i>Nestor</i>	\$1.60
881	5" wide by 25" long.....	<i>Sanbag</i>	2.00
882	5" wide by 36" long.....	<i>Neting</i>	2.20
883	5" wide by 45" long.....	<i>Sannes</i>	2.40
884	5" wide by 60" long.....	<i>Neubag</i>	2.50

Elastic Bandage

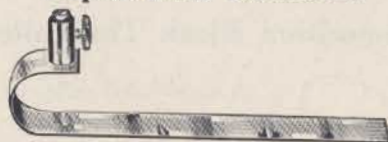

Employing Elastic Bandage is the only known method of binding Diathermy Electrodes to the limbs, which will permit the patient to move if necessary for the sake of comfort without the electrode shifting.

No. 854

No.		Code	Price
854	3" width <i>Elband</i>	Yard	\$0.30
856	2" width <i>Vanire</i>	"	.20

Liquid Bath Connector

For carrying the Sinusoidal or Diathermy Currents to water in trays, for treating the limbs. Connector lays flat in the fluid, and wire connection is made to binding post.

No.		Code	Price
618	Liquid Bath Connector.....	<i>Gleam</i>	\$0.70

New Paper-Backed Diathermy Foil

An extremely flexible contact material consisting of a soft metallic alloy impressed on paper. This may be torn with the fingers or cut with scissors to any size or shape desired, and is discarded after treatment. You have assurance of perfect contact with no hot spots, and a new electrode is used for each new application. The cost is negligible. The material will fold over any joint as it conforms to any irregularities of the surface. May be held in place with elastic bandage as our No. 854, or crepe paper bandage. When the latter is used both electrode and bandage are discarded after treatment. Clean, sanitary, flexible, adaptable and yet low in cost. Everyone who has tried it has come back for more.

No.	Code	Price
828 Square foot	<i>Zimek</i>	\$0.10

Sheet Block Tin

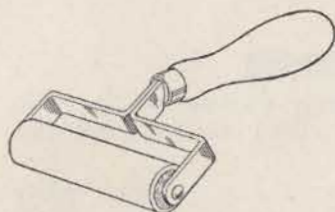

Sheet Block Tin, made specially flexible for use as Diathermy Electrodes, 12 inches wide.

This is something entirely new in sheet electrode material, composed of a center of very flexible alloy with a sheet of *pure tin* on each side. Electrotherapists will appreciate the fact that *pure tin* is placed in contact with the skin in preference to the lead ordinarily supplied. It is easily cut with scissors.

No.	Code	Price
840 .010 thick—30 B. & S. Gauge	<i>Nessus</i>	Pound, \$0.65
841 .018 thick—25 B. & S. Gauge	<i>Nestle</i>	Pound, .65
839 .031 thick—20 B. & S. Gauge	<i>Nesspe</i>	Pound, .65
842 .062 thick—14 B. & S. Gauge	<i>Nesthi</i>	Pound, .65

Composition Block Tin Roller

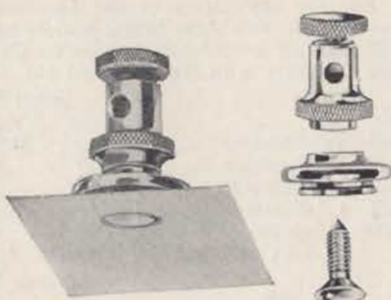

A semi-hard roller of composition material, as illustrated. 4-inch roller is mounted in metal frame. Handle is of hardwood.

No.	Code	Price
888	<i>Tinrol</i>	\$0.50

New Fischer Connector for Sheet Electrodes

An innovation by way of method for making contact to the thin metallic electrodes as used in physical therapy. The small flat-headed screw is pushed through the bottom of the metal plate, the washer set over and the binding post clamped on the top. A perfectly smooth surface is maintained on the electrode. This contact will not come loose during treatment, contact is positive, and the entire connection quickly made.

No.	Code	Price
836	Blocon	\$0.65

Electrode Clamp

Electrode Clamp. Heavily constructed, with pliable rubber covering.

No.	Code	Price
874	Winder	~~\$0.35~~ .60

Electrode Clips

No.	Code	Price
868 Block Tin or Mesh Electrode Clamp	Nettle	\$0.30
852 The "Fahnstock" Clip	Faconn	.10

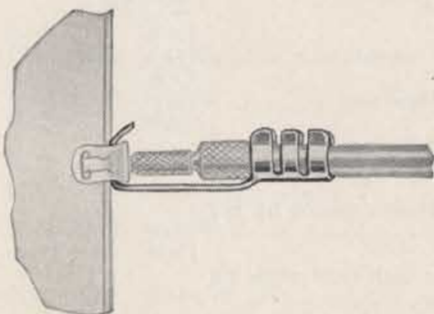

No. 868
Electrode Clamp

The Fischer No-Slip Contact Holder

Positively binds the Fischer Diathermy Cord and the No. 868 Clip together. Connection cannot pull apart.

No.	Code	Price
869	Wimper	\$0.10

Disc Diathermy Electrodes

For the application of the Diathermy High Frequency Current. Discs are made of $\frac{1}{8}$ inch sheet brass, heavily nickel plated. Discs Nos. 606, 609, 625, 626, 627 and 628 are interchangeable on the same set of rubber handles. No handles are necessary with Nos. 610 and 611.

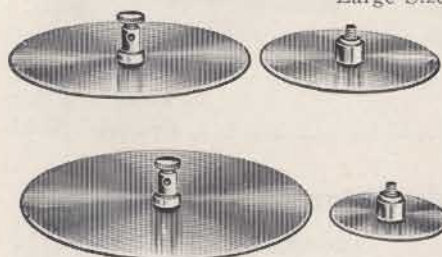

Small Size Discs

No.	Code	Price
625 $\frac{3}{8}$ " diameter	<i>Velour</i>	\$0.45
626 $\frac{1}{2}$ " diameter	<i>Velvet</i>	.50
627 $\frac{3}{4}$ " diameter	<i>Vendee</i>	.55
628 1" diameter	<i>Vendow</i>	.70
630 Complete set of four above discs and handle	<i>Veneer</i>	2.50

Large Size Discs

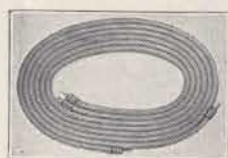

No.	Code	Price
606 2" diameter	<i>Jaw</i>	\$0.85
609 3" diameter	<i>Graft</i>	1.45
610 4" diameter	<i>Grain</i>	1.90
611 5" diameter	<i>Gurgl</i>	2.20
606R Rubber Handle	<i>Jecur</i>	.85

New Fischer Diathermy Cords

Diathermy Cords are constantly getting wet, and when covered with a mercurized or silk webbing they are usually stained and discolored after but a few days' use.

Here are our much improved Diathermy Cords, covered only with pure gum rubber. They are very flexible, easily kept as clean as when new, and constructed to give long service.

No. 1330

No. 1332

No. 1334

No.	Code	Price
1330 6-foot cords, with heavy rubber insulation	<i>Negro</i>	Pair \$2.75
1333 6-foot cords, with light rubber insulation	<i>Wilful</i>	Pair \$2.45
1331 With special tips, for the Fischer Senior "FO," "LO," "Y," "G" or "GP" Diathermy Outfits	<i>Wicup</i>	Pair \$2.75
1332 Rubber-covered Diathermy Cord with special tip for Type "V" Outfit	<i>Waiste</i>	Pair \$5.50
1334 Rubber-covered Diathermy Cords with right angle tip for "G2" and "G3" Outfits	<i>Warmth</i>	Pair \$3.20

ACCESSORIES AND SUPPLIES

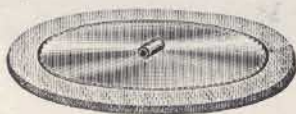

Diathermy Hand Electrode

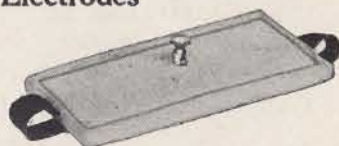

A most convenient method of applying the Diathermy Current by the hand, for local treatments. The rubber band holds the plate in close contact with the palm of the hand, and allows a free movement of the fingers for massage purposes. Carefully designed; all edges smoothly rounded and polished, making it an ideal and extremely convenient appliance.

No.	Code	Price
614 Hand Electrode	Grace	\$1.70

Flexible Pad Electrodes

No. 613

No. 690

A flexible, Felt Pad, backed with pure block tin. Can be adapted to most any shape. Has connection on back for fastening wire from machine.

No.	Code	Price
613 Felt Pad Electrode—8"—Round	Giddy	\$2.35
690 Felt Pad Electrode—3"x6"	Lasher	1.25

Pad electrodes of odd sizes and shapes, made to order.
Write us your requirements.

The Fischer Electrocoagulation Foot Switch

As illustrated, this Foot Switch lays close on the floor. A touch of the toe makes and breaks the contact.

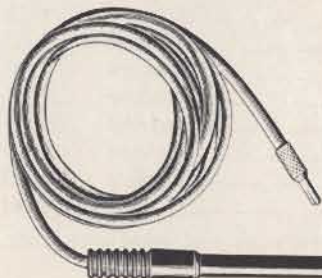

It is molded of Bakelite and sufficient insulation has been used to make it shock proof. It is easily moved about, yet keeps an upright position on the floor.

The cable is very flexible, and covered with pure gum rubber; it may be washed and kept as new always. Cable terminals will be furnished to fit any style apparatus; specify machine used, when ordering.

Catalog No. 1498

No.	Code	Price
1498 Fischer Electrocoagulation Foot Switch, with 8-foot cable	Waving	\$10.50
1206 Extra rubber covered cable	Tiberi	Per foot .15

No. 1777

Adjustable Reaction Electrode

The metal electrode running through the center of the hard rubber sheath may be extended beyond the end of the insulation, or withdrawn into the sheath with a turn of the handle.

No.	Code	Price
1777	Scythe	\$5.00

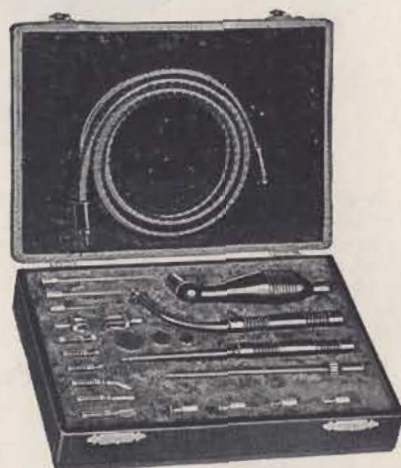

Surgical Diathermy Electrodes

The electrodes are made of a hard alloy, heavily *gold* plated, and the handles of hard rubber, highly polished.

No.

1300 Complete set Gold Plated Surgical Diathermy Electrodes, with protected Cord and rubber Handles, as illustrated, in plush lined leatherette-covered Case.

Code, *Macabe*. Price, \$75.00

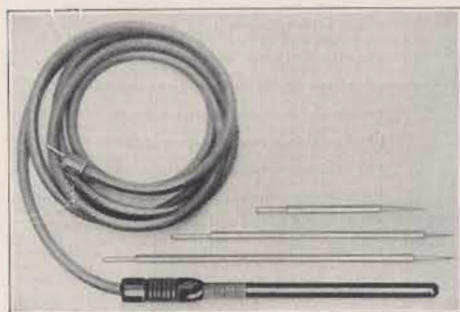

No. 1300

No.		Code	Price

Physicians interested in Surgical Diathermy should read our free pamphlet, "Surgical Diathermy." Ask for Form 896A.

ACCESSORIES AND SUPPLIES

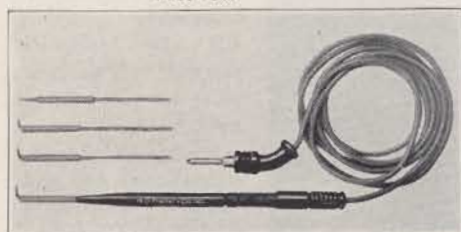

New Surgical Diathermy Electrodes

No. 862

No. 920

No. 740

Suggested by Drs. T. Howard Plank, D. Frank Knotts and Gregg Dillinger for electrocoagulation operations—especially tonsillectomies. They are small, light in weight and exceptionally handy for this work. The operator's hands are out of the line of vision, entirely, when making the application.

A very flexible rubber-covered cable is securely fastened directly into the polished hard rubber handle, and is sufficiently insulated that it may be wound around the hand and arm, or allowed to lay against the face of the patient with absolutely no danger of shocking.

There is no exposed metal anywhere, with the exception of the active tip. Tips of different lengths are furnished, as illustrated.

No.		Code	Price
862	The Plank Electrode and 3 tips.....	<i>Sally</i>	\$5.00
920	The Knotts Electrode and 3 tips.....	<i>Waylay</i>	10.00
740	The Dillinger Electrode, as illustrated, with 3 tips, constructed with special chuck in handle to prevent needles from turning	<i>Aide</i>	10.00

THE NORWOOD COAGULATION NEEDLE

Nine inches long, made to fit the Plank Handle No. 862.

No.		Code	Price
863		<i>Norned</i>	\$0.75

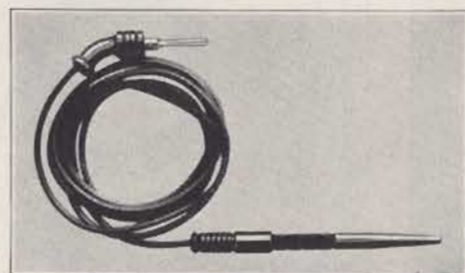

THE BECK TURBinate COAGULATION NEEDLE

For submucous turbinate reduction by coagulation.

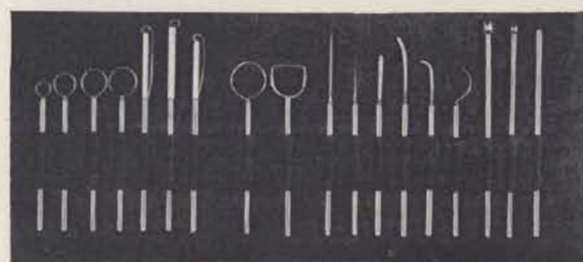

No.		Code	Price
2449		<i>Zimil</i>	\$1.25

Electro-Surgical Tissue-Cutting Handle and Instruments

This set of loops, knife blades, needle points, reamers and coagulating balls with the special insulated handle, has been especially designed for electro-surgical tissue-cutting purposes. The handle is separable for sterilization, and has a chucking device which prevents the cutting instrument from turning during operation. The set of cutting instruments is sufficiently complete for any operative purpose. The complete set is mounted, as illustrated, in a folding case. Instruments may be purchased individually as indicated below.

No.	Code	Price
789 Electro-Surgical Tissue-Cutting Handle, with insulated cord.....	Zarje	\$6.00

Instruments Are Listed in Order as Illustrated

No.	Code	Price
792 1/4" Loop Cutting Electrode	Wraith	\$0.85
794 3/8" Loop Cutting Electrode	Wizard	.85
796 1/2" Loop Cutting Electrode	Wizard	.85
2421 5/8" Loop Cutting Electrode	Zatul	.85
2437 Cervical Reamer (side cutting, long).....	Zicib	2.00
2435 Cervical Reamer (loop)	Zifay	2.00
2436 Cervical Reamer (side cutting, short).....	Ziyal	2.00
2420 3/8" Loop Cutting Electrode (heavy wire).....	Zatok	.85
2425 Square End Cutting Loop—1/8" blade.....	Zihig	2.50
799 Needle Point Cutting Electrode—1 1/4".....	Wombat	1.00
2424 Needle Point Electrode—5/8".....	Zirty	.70
2423 Straight Knife Electrode—1" blade.....	Zausk	1.20
797 Saber-shape Knife Electrode—1 1/8" blade.....	Wolver	1.30
2422 Saber-shape Knife Electrode—3/4" blade.....	Zaudt	1.20
798 Curved Knife Electrode—5/8" blade.....	Wolfra	1.00
2429 Coagulating Ball—1/8" diameter.....	Zatij	.60
2430 Coagulating Ball—1/4" diameter.....	Zausc	.60
2431 Coagulating Tip—3/8" diameter.....	Ziunk	.15

No.	Code	Price
2440 Complete set of 18 Loops, Knife Blades, Needle Points, Reamers and Coagulating Balls, as above, in folding case.....	Zavol	\$20.00

THE MILLSTONE ADJUSTABLE COAGULATION ELECTRODE

Has special adjustable feature that the exposed insulation covering the needle point may be more or less exposed as occasion demands. Needle may be entirely covered by the insulation or exposed up to $\frac{5}{8}$ of an inch. Especially recommended for tonsil coagulation.

No.	Code	Price
744	Mistoe	\$7.50

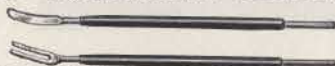

PILLAR RETRACTORS, DOUBLE END

Made of polished hard rubber or extra strong pyrex glass, for use in connection with electrocoagulation of tonsils.

No.	Code	Price
924 Dillinger Double End Pillar Retractor (hard rubber)	Accedil	\$2.50
922 Double End Pillar Retractor (pyrex glass)	Zavum	1.50

DOANE TURBINATE ELECTRODES

No.	Code	Price
1785 Spade Shape, made to fit Plank Electrode No. 862	Warped	\$1.25
1786 Fork Shape, made to fit Plank Electrode No. 862	Warren	1.25
1787 Set of 2 Doane Electrodes as above	Warsaw	2.50

(Dr. Doane's "Turbinate Technic" will be sent on request)

THE THOMETZ TONSIL ELECTRODE

No.	Code	Price
910 Thometz Electrodes (set of 3)	Thomet	\$4.00
911 Retractor and Handle	Thoret	1.40
912 4-Prong Electrode	Thofor	1.40
913 2-Prong Fork Electrode	Thotwo	1.40

(The No. 862 Plank Handle must be used to hold Nos. 912 and 913)

WADDINGTON BIFURCATED INTRA-NASAL HIGH FREQUENCY ELECTRODE

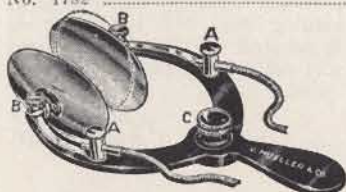

For the unipolar application of High Frequency Current to the nose. The bifurcated end piece is flexible so the device may conform to any type of nostril.

No.	Code	Price
1782	Wabiel	\$3.75

EPIDIDYMIS ELECTRODE

A specially designed clamp arrangement for administering diathermy current.

No.	Code	Price
1277 Epididymis Electrode	Corepi	\$12.00

Use of Diathermy in Epididymitis is described in our pamphlet. Ask for Form 530A.

Autocondensation Handles

No. 52

No. 58

Handle No.	Diam.	Length	Code	Price
52	1"	9"	Carota	\$1.50
81	1"	10"	Vitals	2.25
58	1½"	14"	Authan	3.00

Autocondensation Couch Cushion

Cushion is made of sea moss covered with black DuPont Fabrikoid material with an electrode of zinc.

The Fischer cushion is fully two and one-half inches thick. Size over all, 22 inches wide and 62 inches long.

No.	Code	Price
420 Auto Couch Cushion.....	Caffea	\$33.00

Autocondensation Couch Pad

A well made pad of black DuPont Fabrikoid material measuring 22 inches wide by 62 inches long. The insulating material between the patient and the center electrode plate is oiled silk and wool felt. The entire pad is about ¾ inch thick and is designed for machines of medium voltage d'Arsonval output, as for example the Fischer Type "G2" Diathermy Outfit.

No.	Code	Price
418	Cadogg	\$30.00

Special G. U. Auto Pad

An autocondensation pad of precisely the same dimensions as catalog No. 418 but split as illustrated. This style of pad was originally designed and used

by Dr. B. C. Corbus in his G. U. Diathermy work.

No.	Code	Price
416 Corbus Auto Pad.....	Corpad	\$30.00

Autocondensation Chair Pad

No. 410

Frame made of five-ply veneered oak. On one side is mounted a layer of conducting metal covered with a dielectric of one-eighth inch black sheet fiber.

No.	Code	Price
410 Chair Pad	<i>Cado</i>	\$10.00

413 Flexible Chair

Pad of approximately the same size and shade as No. 410, but made of same material and in the same manner as No. 418

on opposite page. *Viatric* \$10.00

No. 413

Wooden Treatment Table

A solid, well made treatment table of all-wood construction, finished in mahogany. Has a compartment under the top for storing the autocondensation pad when not in use.

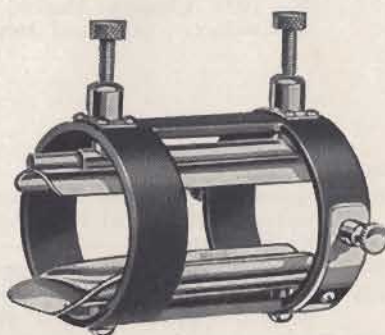

No.	Code	Price
422	<i>Tettat</i>	\$60.00

Rowell Urethral Electrode Set

For treatment of gonorrhea in the male. For full information as to Dr. Rowell's technic, ask for descriptive pamphlet.

Rowell Urethral Electrode; straight perforated electrode of metal; nickel plated, for internal urethral treatments; Bakelite Frame with Clamps and Thermometer (Luer Syringe not included.)

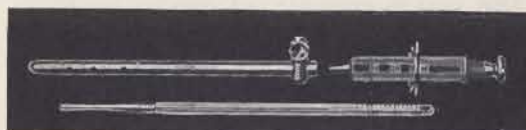

No.	Code	Price
1372	<i>Vortex</i>	\$25.00

Thermometer for Rowell Electrode

No.	Code	Price
1373	<i>Waddie</i>	\$2.50

For Rowell Electrode No. 1372

The Chapman Vaginal Electrode

Designed along scientific lines, with size and shape of polished metal end to properly engage the lips of the cervix. The shank, or handle, is made of hard rubber. This electrode is to be used with Diathermy Current. Supplied both with and without the special thermometer which permits the accurate maintenance of an exact temperature within the vagina. This instrument is of extreme value in the treatment by diathermy of painful or inflammatory conditions of the female pelvis.

No. 1885. Chapman Vaginal Electrode—Side View

No. 1885. Chapman Vaginal Electrode—Top View

No. 1886. Chapman Vaginal Electrode with Special Thermometer

No. 1909. Chapman Vaginal Electrode with Thermometer, Cord, and Insulated Joint.

No.		Code	Price
1886	Regulation size, with thermometer. Shank $1\frac{1}{16}$ " diameter, cervical bowl $1\frac{1}{4}$ " wide and $\frac{3}{8}$ " thick. Handle of hard rubber.....	Chavag	\$13.00
1885	Regulation size, without thermometer arrangement.....	Chapel	6.75
1884	Small size, with thermometer. Shank $\frac{1}{8}$ " diameter, cervical bowl $1\frac{1}{16}$ " wide, $\frac{1}{16}$ " thick. Hard rubber handle.....	Chasma	13.00
1883	Small size, without thermometer arrangement.....	Chalit	6.75
1909	Regulation size, as No. 1886, with thermometer and with cord and insulated joint.....	Vermin	16.00
1907	Small size, as No. 1884, with thermometer and with cord and insulated joint.....	Verity	16.00

Technic for the Chapman Vaginal Electrode is fully described in our pamphlet, "Diathermy in Gynecology." Ask for Form 643B.

Kolischer Parametric Electrode

This electrode was devised for the treatment of infiltrations of the Douglas folds and other forms of parametritis. The active end of the electrode is placed behind the cervix. The metallic surface of the electrode being in direct contact with the posterior vault of the vagina forces the electric current through the parts to be heated, thus producing softening and eventual absorption of the exudate.

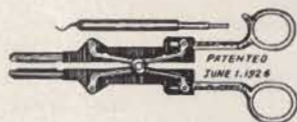

No. 1892 Kolischer Parametric Electrode.....*Winkle* Code Price \$6.50

Dr. Bierman's Electro-Surgical Hemorrhoid Clamp

Permits easy, safe, complete removal with minimum reaction. Coagulates the base of the hemorrhoid, which is then removed above coagulated base.

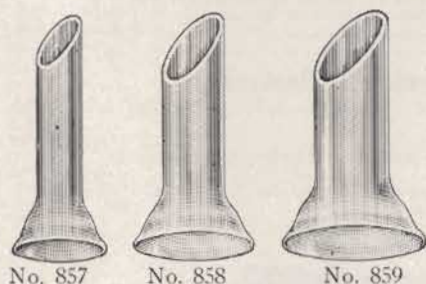

No. 1292 Bierman Hemorrhoid Clamp.....*Winnow* Code Price \$35.00

Glass Rectal and Vaginal Specula

For use in connection with electrical applications (Diathermy, High Frequency, Galvanism, etc.) in the rectum and vagina.

These specula are made in three standard sizes:

No. 857

No. 858

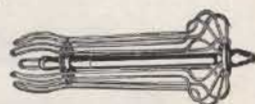

No. 859

No.	Code	Price
857 22 mm. diameter.....	<i>Sabot</i>	\$0.65
858 30 mm. diameter.....	<i>Saber</i>	.85
859 40 mm. diameter.....	<i>Sacre</i>	1.05

Special sizes and shapes can be built to order.

Wire Bath Speculum

No. 1276 As illustrated*Cobath* Code Price \$1.50

Fischer Diathermy Belt Electrode

Composed of a series of aluminum rectangular cups, linked together, and a flexible rubber belt. One or more electrodes (cup) may be employed for applying diathermy to any small area, or as many links as may be required to pass around the entire abdomen; especially useful in connection with internal electrodes as the indifferent plate. Twenty-two cups to set.

No.		Code	Price
1888	Belt Electrode, 22 cups and rubber belt.....	<i>Dibelt</i>	\$18.00

ACCESSORIES AND SUPPLIES

Internal Electrodes

These electrodes are essentially the same as those illustrated and described on pages 23 and 24, except that the connectors are of the "Morse" type to accommodate cords furnished with the Morse Wave Generator.

No.		Code	Price
1940	Flexible rectal electrode, for localized muscle exercise to high rectal area as in constipation at region of descending colon, to splenic flexure. (No. 1).....	<i>Unhat</i>	\$6.50
1941	Diagnostic electrode, for electro diagnosis (muscle testing) to determine degree of local disability. (No. 2).....	<i>Union</i>	5.50
1942	Bi-polar rectal electrode, for local invigoration of relaxed rectal region. (No. 3).....	<i>Unles</i>	8.00
1943	Vaginal electrode, for general invigoration of pelvic organs (relaxed conditions.) (No. 4).....	<i>Unlok</i>	3.75

316	Felt Pad Disc and Handle.....	<i>Carmin</i> 1.30

Treatment Cords

Made of very flexible Copper stranded wire, covered with a mercerized sheathing, green colored. Have metal tips on both ends.

No.	Code	Price
312 Cords	Carol	\$0.75

Metal Treatment Handles

Nickel-plated handles, for Sinusoidal, Galvanic and Faradic treatment.

No.	Code	Price
311 Handles, pair	Caries	\$1.00

Waddington Intra-Cervical Ionizing Electrode

The smooth blunt end, and the gradual taper to a pronounced shoulder makes it admirably adapted for cervical work. Tip is of zinc, mounted in a polished hard rubber holder.

No. 1781	Code	Price
	Wincer	\$2.75

The Hawkeye Timer

Registers the length of any treatment exactly. A wonderful aid to accurate timing, particularly valuable when the physician is treating more than one patient at a time. The Hawkeye rings an alarm at the exact moment treatment should end. Should be in every treatment room.

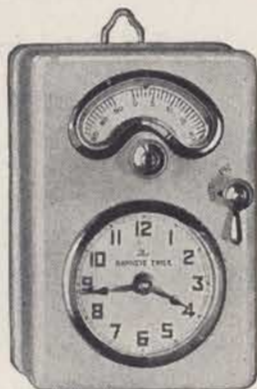

No.	Code	Price
469 Hawkeye Timer	Vestry	\$7.50

L-F Treatment Timer

For Timing X-Ray, Diathermy, Quartz Lamp, Radiant Heat Lamp Treatments.—One minute to one hour. Automatically rings a gong and cuts off current at expiration of time. Setting can be tested, but switch will not remain on unless timer is set. Has Set-Back feature. Pointer can be overset, then turned back to exact time desired. *Automatically Integrating*—The Timer Switch can be turned on or off as often as desired during treatment. It will then automatically sum up the different periods of actual treatment. Operates on any X-ray machine equipped with magnetic switch. On Mercury Vapor or Radiant Heat Lamps, eliminates accidentally leaving lamp burning over night. *Safe*—Patient can at any time instantly turn off current by means of emergency pull cord held in hand.

No.	Code	Price
370 L-F Treatment Timer	Wittles	\$35.00

The Hollender-Cottle Headband and Electrodes

This perfected headband is a wonderful help to the physician in giving Diathermy for partial deafness, for nasal accessory sinus disease, and for nerve affections about the face. It is of use also for administering diathermy to the eye.

The outfit consists of the headband, with connections for electrodes, cords and electrode holders as illustrated.

Headband and electrodes are readily adjusted to give proper pressure in any combination of applications. In treating the ear, the indifferent electrode is placed on the face anterior to the opposite ear, while in treating the sinuses the indifferent electrode is placed on the nape of the neck.

No.		Code	Price
1360	Hollender-Cottle Headband with Block Tin electrodes, complete.....	<i>Vceder</i>	\$38.00
1361	Headband with Binding Posts only.....	<i>Vector</i>	25.00
1362	Long Electrode Support (2).....	<i>Vedett</i>	5.20

1333	6 ft. Cords (2).....	<i>Wilful</i>	2.45

Also ask for our pamphlets, form No. 912 and form No. 913

Self-Retaining Ear Speculum

For Use in Metallic Ionization of Chronic Otorrheas

This simple apparatus obviates the necessity of holding the speculum in the ear canal. Furthermore, the indifferent electrode is on the inner side of the leather band, part of the same apparatus, doing away with large

pad electrodes usually employed in this work and placed about the forearm or other surfaces of the body. The binding posts on the outer part of the headband serve for the connection of cords from the galvanic apparatus.

The leather band is easily placed around the head with the speculum directed into the ear canal to be treated. A free rotary motion of the speculum holder facilitates the direction of the glass speculum so that no difficulty is encountered in setting it in proper position.

References—For the technic of metallic ionization in chronic otorrhea, see the following: Friel, A. R., "The Treatment of Chronic Otorrhea in School Children," Hospital and Health Review, January, 1922.

1355	Self-retaining Ear Speculum.....	<i>Wassal</i>	\$15.00

Breuer Safety Switch

The terminals of this switch are made to fit the foot switch openings on all Fischer Diathermy Outfits. The switch operates with a pull cord, just like an electric light socket, so that either the physician or the patient may turn the current on or off in a moment. This switch gives patients a feeling of perfect safety.

No.	Code	Price
86 Breuer Safety Switch, complete with insulated pull cord.....	Varier	\$10.00

The Fischer Duplex Hi-Lo Volt Control

The object of this device is to enable the operator to administer simultaneously the Diathermy and Low Voltage or contractual currents.

A great time saver for the busy office or clinic. Any low voltage current, galvanism, sinusoidal or surging may be employed with the diathermy, cutting the treatment time in half.

Write for full particulars.

No.	Code	Price
1195	Hilova	\$50.00

The Linn Ear Electrode and Control

No. 1270 and No. 1272

The Linn Ear Electrode and Current Control is an innovation for diathermy treatment. The small control box enables the use of a very finely regulated current volume, independent of diathermy machine setting. The apparatus is complete, with headband, external U-shaped plates and cords, as illustrated.

No.	Code	Price
1270 Linn Biaural Electrode, complete, as illustrated, without control box.....	Lincol	\$15.00
1272 Linn Ear Electrode Control.....	Lincon	18.00

The Kolischer Spark Gap

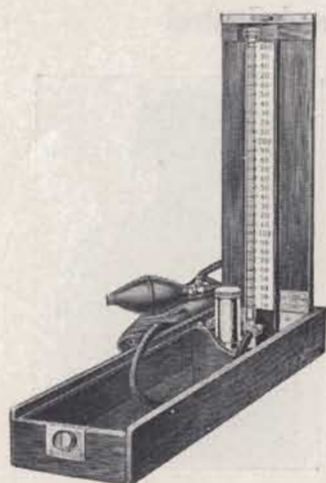

A vast improvement over any other type of Spark Gap ever devised for any high frequency machine.

This "Kolischer" Gap will fit the supports on any Fischer or Thompson-Plaster Styles "F" and "F-O" machines, as well as the Types "L,"

"L-O" and "Military" models without alterations or other attachments.

This new Multiple Spark Gap is equipped with 16 Tungsten spark interrupter points, adequate copper flanging to carry away all heat, and individual control for each set of tips as well as master controller for simultaneous adjustment. Quiet, perfect control is possible at any voltage or milliamperage, more constant discharge obtained at any setting, and the regulation is gradual—as compared to the usual jumps—the utmost in utility and flexibility.

No.	Code	Price
1222 Kolischer Spark Gap.....	Kolgap	\$75.00

The Armored B-D Manometer (Certified)

A strengthened and simplified instrument, the Armored B-D is equipped with a device which enables the user to make immediate repairs to the Manometer tube. It is not necessary to return the instrument and suffer consequent delay if repairs are necessary. This Manometer is furnished in three types, pocket, desk and wall.

No.	Code	Price

These Electrodes, with exception of Nos. 2009, 2010, and 2025 will have our regular 5/8" shanks.

Nos. 2009, 2010 and 2025 have Insulated Handles blown on the electrodes themselves.

Non-Vacuum Tubes may be had to fit the ½" Handles by placing "O" before catalog number when ordering, except those which have handles attached.

Universal Handle for High Frequency Electrodes

Insulated section made of hard pressed fiber, having nickel-plated brass spring clamp on end for holding Electrodes firmly in position. Large swivel ring connector to which is hooked the insulated cord, permits of perfect freedom of movement. Made in two sizes.

No. 50

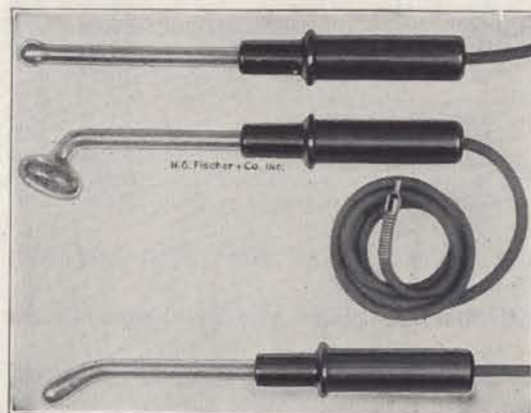

No.		Code	Price
050	For $\frac{1}{2}$ " Electrodes.....	<i>Boldo</i>	\$1.30
50	For $\frac{5}{8}$ " Electrodes.....	<i>Bolus</i>	1.30

Adjustable High Frequency Handle

Nickel-plated clamp on end of long fibre insulated handle is arranged to swivel freely as desired to any angle. A very convenient arrangement especially for orificial work.

No.		Code	Price
50	For $\frac{5}{8}$ in. Electrodes.....	<i>Roman</i>	\$2.00

Nagelschmidt Condensation Electrodes

Suggested by Dr. Franz Nagelschmidt. Made of very heavy glass, filled with metal in powdered form.

No.		Code	Price
95	Nagelschmidt filled glass electrode, with ball-shaped end.....	<i>Wüthel</i>	\$9.00
96	Nagelschmidt filled glass electrode, with flat surface.....	<i>Wither</i>	9.00
97	Nagelschmidt filled glass electrode, with angular end.....	<i>Withie</i>	9.00

ACCESSORIES AND SUPPLIES

Insulated High Frequency Cord

This cord is made of a stranded copper conductor, covered with several layers of pure gum rubber, cotton covered. At one end is mounted our standard cord tip ($\frac{3}{8}$ inch), which will fit any of our machines, and on the other end is mounted a swivel clasp. Cord is very flexible.

No.		Code	Price
51	Heavy Cord, 4' long	<i>Gait</i>	\$2.25
51-5	Heavy Cord, 5' long	<i>Hirtz</i>	2.40

51-7	Heavy Cord, 7' long	<i>Hodge</i>	3.00
Extra cable, 15c foot			

Extra Heavy Insulated Cable

Made similar to our No. 51 but with very heavy rubber insulation.

No.		Code	Price
83	Extra Heavy Protected High Frequency Cord, 5' long.....	<i>Malle</i>	\$3.00

Heavy High Frequency Cord

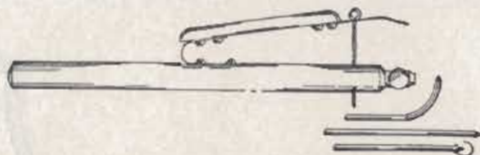

No.		Code	Price
85	Heavy High Frequency Cord, with special tip for Type "V" Outfit (5-foot)	<i>Wailfu</i>	\$3.15

Biaural Cords

No.		Code	Price
1765	As illustrated	<i>Wagcur</i>	\$2.00

Fulguration Electrode

Fulguration is the best known method of applying the High Frequency Current for the removal of warts, moles and similar growths.

No.		Code	Price
20	Fulguration Electrode and three tips.....	<i>Gadol</i>	\$2.70

Fulguration Wire

Steel music wire, covered with pure gum rubber, for introduction through the cystoscope. When used in connection with one of our High Frequency machines excellent results may be obtained in the removal of growths in the urinary bladder.

No.		Code	Price, Foot
40	Fulguration Wire	Gag	\$0.10

Fischer Bladder Fulguration Electrode

A special fulguration electrode for use in the bladder through a cystoscope. Made of a hard wire center, insulated with a very small oiled silk covering. Has solid silver tip, olive shaped, of 2mm. diameter and about 4mm. long. Other end is arranged to accommodate an ordinary cord tip.

No.		Code	Price
41	Complete as illustrated.....	Gagtip	\$3.50

Special Tonsil Fulguration Electrode

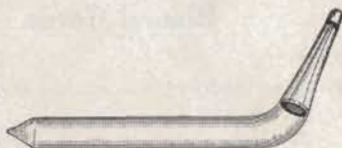

No.		Code	Price
29	Special Throat Fulguration Electrode similar to our No. 23 with wire tip mounted in end.....	Gerdy	\$1.50

Improved Ear Electrode

Properly shaped, and well insulated.

No.		Code	Price
43		Gabell	\$1.60

The Mills' Tongue Electrode

Designed that the maximum amount of High Frequency Diathermy Current may be applied to the tongue. Especially valuable in indirect treating of sinus infections. May be used either as unipolar or bipolar contact.

No.		Code	Price
1783		Zauyg	\$5.00

ACCESSORIES AND SUPPLIES

Glass Vacuum Handle

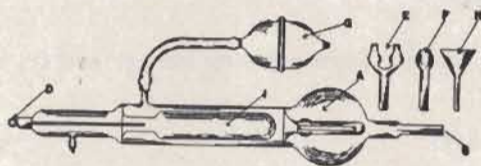

For indirect treating with the High Frequency Current.

No.	Code	Price
53 Glass Handle	<i>Bismal</i>	\$1.75

Indirect Treatment Handles

No.	Code	Price
54 Similar to No. 53, except that it is arranged to fit No. 49 Shock Proof Handle. For Indirect Treating	<i>Banter</i>	\$0.90
054 Same as No. 54, but made to fit the 049 Handle.....	<i>Bantam</i>	.95

Ozone Generator

No. 22

An ALL GLASS Ozonizer, made in one piece. Has two compartments, one for holding the purifying oils, and a vacuum chamber to which is connected the wire from any high frequency source.

No.	Code	Price
22 Ozone Generator, complete as illustrated, with oils	<i>Bidwy</i>	\$10.00
70 Rubber Bulb, only, with 6" hose.....	<i>Ozbule</i>	.50
71 Hose Connection—foot	<i>Ozhoco</i>	.10

Tongue Depressor and Diagnostic Illuminator

Cat.
No.
340

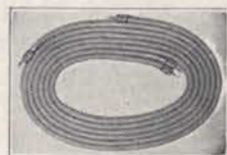

Consisting of an aluminum handle with folding end-piece through which are slipped ordinary wooden tongue strips, twelve wooden blades, green silk connecting cord, lamp socket and opal lamp.

The special opal lamp is supported in spring clips above the wooden tongue blades, and is easily removed. This lamp throws an intense white light, properly focused.

No.		Code	Price
335	Diagnostic Illuminator, with Cords and Socket, and Opal Lamp	<i>Usurp</i>	\$4.75
336	Special Diagnostic Lamp Bulb, only.....	<i>Uther</i>	2.00
337	Tongue Depressor, only, with twelve blades.....	<i>Uvula</i>	2.50
338	Extra Wooden Tongue Blades, box of 12.....	<i>Vacat</i>	.15
340	Complete Lamp and Tongue Depressor arrangement, including Illuminator with Cords, Holder, and Opal Lamp, Tongue Depressor and 12 Wooden Tongue Blades.....	<i>Vague</i>	7.25

New Fischer Cautery Cords

Flexible copper stranded wire, covered with pure gum rubber, replacing the former cords which were covered with mercerized webbing. May be washed and always kept clean as when new.

No.		Code	Price
1330	6 ft. pair.....	<i>Negro</i>	\$2.75

Note: When ordering these cords for the Fischer Senior "FO" or "LO" Diathermy Outfits, specify No. 1331, which are supplied with special tips.

No.		Code	Price
306	Mercerized Covered Cautery Cords, 4 feet long.....	<i>Achor</i>	\$1.00

Cautery and Diagnostic Transformer

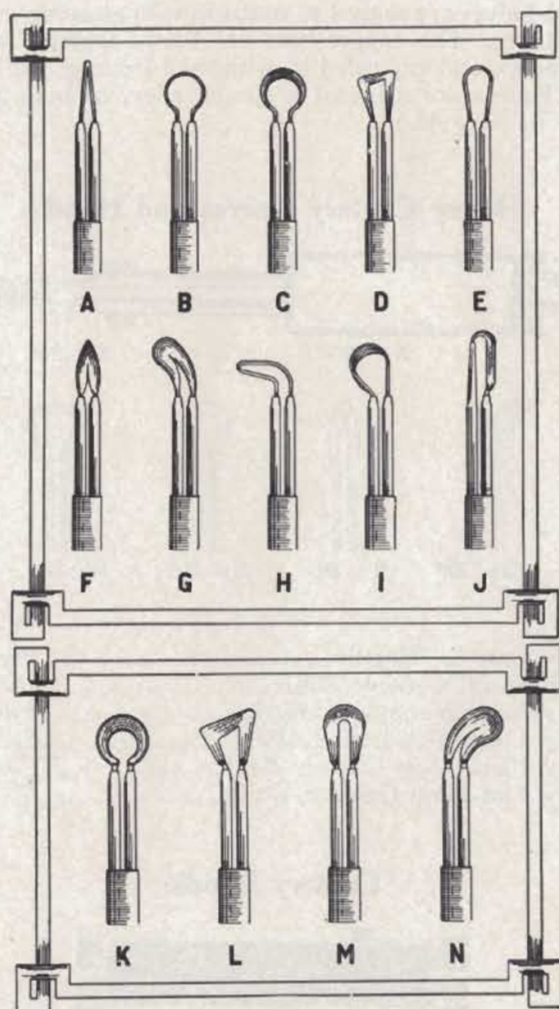

No. 471

The Fischer Cautery and Diagnostic Light Transformer is a compact, neat generator of the closed-core type, consuming very little energy, yet having sufficient output to heat most any Cautery knife on the market. Has a diagnostic lamp circuit with a range of from $\frac{1}{2}$ to 12 volts. Can be used with perfect safety for lighting your smallest Cystoscope bulbs, or for illuminating a 12-volt lamp if necessary. Both circuits are perfectly regulated, and durably wound. Case is covered with black leatherette. Contact buttons, regulating levers, and binding posts are of brass, heavily nickel-plated, and mounted on white marble.

No.		Code	Price
470	Transformer only, in carrying case, with connecting cord and attachment plug, for 110 volt, 60 cycle, alternating current.....	<i>Ab</i>	\$27.50
471	Outfit with pair No. 306 Heavy Cautery Cords, 1 No. 305A Cautery Knife, 1 No. 305C Cautery Knife, 1 No. 301 Cautery Handle, 1 No. 321 Diagnostic Illuminator, complete.....	<i>Abaca</i>	33.00

Cautery Knives

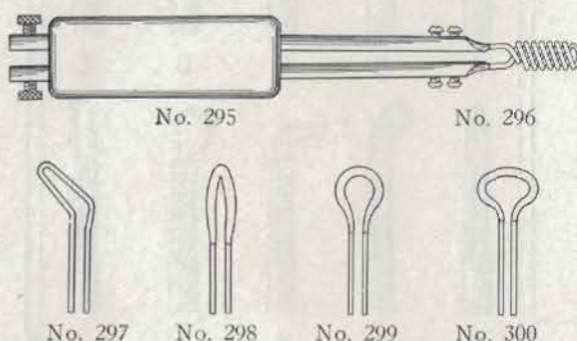

No.	Price

305K to 305N Heavy.....	" .80

Codes *Acmea, Acmeb, Acmec*, etc.

Cautery Knives

The carefully shaped knives are securely mounted into the copper bars. These knives are shaped to conform with most any requirements for all purposes. The copper bars are bound together by a special twisting process, and enameled to withstand heating and handling indefinitely. Knives are made of a special alloy, of high electrical resistance. (See page 48.)

Heavy Cautery Knives and Handle

No.		Code	Price
295	Heavy Cautery Handle.....	<i>Pacero</i>	\$12.25

300	Heavy Flat Loop Cautery Knife.....	<i>Paddle</i>	1.75

Cautery Handle

Made of a practically indestructible material. Arranged to hold the knives in any one of five positions. Has contact switch for convenience in operating.

No.		Code	Price
301	Cautery Handle	<i>Acetyl</i>	\$2.75

Rotary Converters

No. 958

No. 954

When direct current, only, is available it is necessary to install a rotary converter to operate any efficient High Frequency machine, or any of the late types of small X-ray Outfits. (The larger X-ray machines contain their own rotary converters.)

Our 110 volt rotaries have a special booster winding which insures a full 110 volt A. C. when operated on 110 volts D. C.

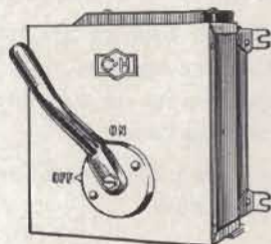

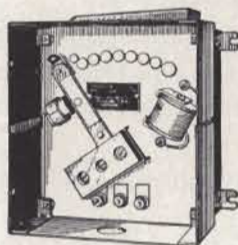

Our 220 volt rotaries are tapped at the proper point to give 110 volts A. C. when operated on 220 volts D. C. This eliminates the use of separate step-up or step-down transformers and the loss of efficiency attending their use.

All our Rotary Converters are equipped with a special Condenser, for line protection.

No.	Code	Price
954—500 Watt capacity—operating on 110 volts D. C., and delivering 110 volts 60 cy. A. C.....	<i>Enporg</i>	\$85.00

Hollender-Cottle Bilateral Nasal Speculum

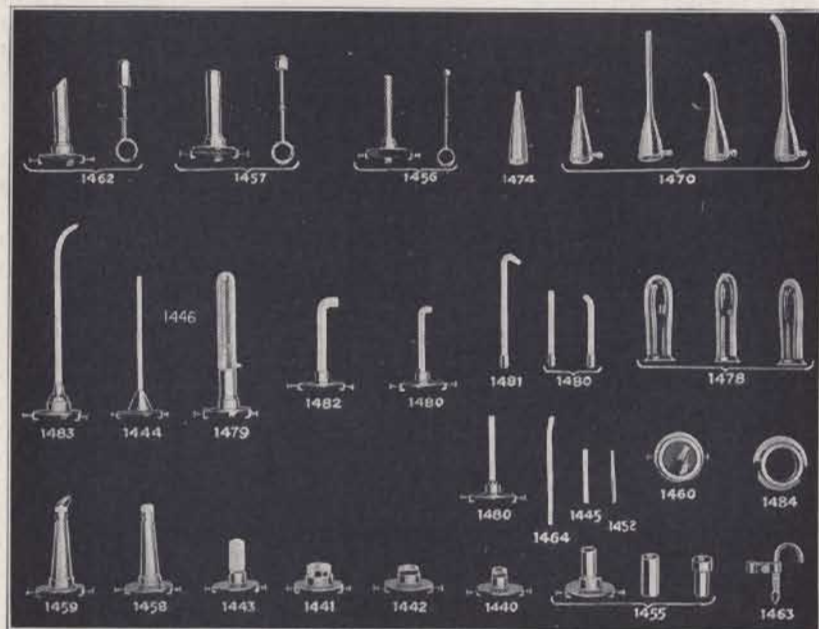

for Intranasal Ultra-Violet Irradiation
without the Use of Quartz Rods

The new "H-C" Bilateral Nasal Speculum offers an improved method for irradiating the nasal mucosa with ultra-violet light. It has several distinct advantages. The raying is direct. It is time saving. It may be used in conjunction with quartz rod irradiation, the latter serving best for posterior nasal work. The speculum is easily attached to a Kromayer Lamp. The adjustments make it possible to treat any nose.

No.	Code	Price
1488	Vulcan	\$15.00

Applicators and Spare Parts

In local conditions of skin or cavity, the range of application of the Kromayer or Alpine Sun lamps depends upon the variety of applicators available. In the selection one should be governed by the extent of work in which the lamp is to be used.

These applicators are made of the best grade of clear quartz which insures the greatest possible transmission of Ultra-violet rays.

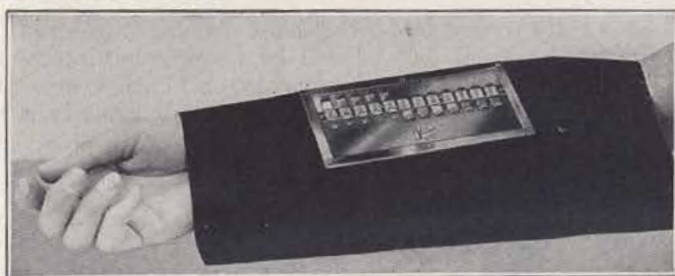

[NOTE For Quartz Ultra-violet Burners
and Burner Repairs, see page 77]

The Fischer Combination Electrophysiotherapeutic Treatment Outfit — Style "FO" Senior

A handsome, impressive piece of office equipment, compact, simple in operation yet the most powerful machine of its type available, and capable of the finest kind of results.

No.	Code	Price
1229	Apparatus as illustrated, with necessary connecting cords, Kolischer Spark Gap, Meter and Leyden Jars.....Nionly	\$685.00

Ask for pamphlet Form No. 430D.

The Fischer Type "LO" Senior High Frequency Diathermy Apparatus

Designed especially for those physicians who are concerned with the specific application of medical and surgical diathermy (electro-coagulation), D'Arsonval auto-condensation and monopolar high frequency currents, but who have no desire for motor and pump features.

No.	Code	Price
1234	Apparatus as described, with necessary connecting cord, Kolischer Spark Gap, Meter and Leyden Jars.....Nisenl	\$575.00

Ask for pamphlet Form No. 430D.

The Fischer Senior Model "V" Diathermy Apparatus

Embodies in one convenient cabinet every modality, at any voltage or milliamperage required in high frequency therapy. The "SENIOR" of the entire Fischer line of diathermy equipment.

No.	Code	Price
2100	Yacht	\$585.00

The Fischer Model "V" Senior Apparatus, with tissue-cutting current.

No.	Code	Price
2116	Yecut	\$685.00

Ask for descriptive pamphlet Form 1002C.

The Fischer Model "G-3" Diathermy Cabinet

"An Instrument of Precision,
Beautifully Mounted"

Efficient and Economical

No.		Code	Price
2125	Fischer Model "G-3" Diathermy Unit, with connecting cord and plug, but no accessories.....	<i>Ajax</i>	\$385.00

Ask for pamphlet Form 1012A

The Fischer Portable Diathermy and Electrocoagulation Apparatus Type "GP2"

This unit is built into a black leatherette covered carrying case, with closed lid, making it in every sense a "portable" apparatus. While this is a very effective office machine, it is more adapted to bedside work.

No.		Code	Price
1393	With connecting cord, but no accessories	<i>Vittat</i>	\$285.00

Ask for descriptive pamphlet Form No. 869C

The Fischer Portable Diathermy and Electrocoagulation Apparatus, Type "G2"

No physician's office, no hospital or sanitarium is complete without some good physical therapy equipment—particularly a diathermy apparatus of the portable or semi-portable type. Such a machine is a decided requisite if modern methods of medicine and surgery are to be employed. Apparatus and Cart sold separately.

No.		Code	Price
1390	With connecting cord, but no accessories	<i>Vitric</i>	\$305.00
1255	Walnut Cart	<i>Terbo</i>	40.00

Ask for descriptive folder Form No. 869C

A Moderately Priced, Portable, High Frequency Diathermy Outfit, Model "A"

This equipment has been designed especially for use by physicians, hospitals and sanitariums where a convenient, efficient, portable machine of low price is required.

The Fischer Model "A" Diathermy Unit, in mahogany case with glass top, as illustrated, on mobile Hospital Cart No. 1258, with connecting cord and plug, but no accessories, for operation on 110 volt, 60 cycle alternating current.

No.	Code	Price
2042		Percc \$265.00

The Fischer Model "AP" Portable Diathermy Unit, in black carrying case, with connecting cord and plug, but no accessories, wound for operation on 110 volt, 60 cycle alternating current.

No.	Code	Price
2045		Percc \$225.00

The Fischer Galvanic Current Generator

No.	Code	Price
1200	Complete with accessories....	Galvan \$125.00

The extreme importance of the galvanic current in the practice of modern medicine is recognized by the majority of physicians of to-day, in gynecology, urology, etc., for depilatory work, ionization, rectal lesions, electrolysis, strictures, etc., etc.

Ask for descriptive pamphlet Form No. 890B.

The Fischer Electro-Surgical Tissue-Cutting Apparatus With Coagulation Current

Outfit is mounted in a black leatherette-covered carrying case. Weight only 49 pounds.

The very latest technic advocated by those surgeons who have made a study of electrical tissue cutting may be employed with this apparatus with an assurance of success.

No.	Code	Price
2134	Fischer Electro-Surgical Tissue-Cutting Apparatus with coagulation taps, with connecting cord but no instruments or accessories	Zeyen \$270.00

Ask for descriptive pamphlet Form 1254

The Fischer Low Voltage Generator

A new and tremendously improved apparatus for the production of continuous or surging alternating or direct current. Currents available are: straight galvanism, surging galvanism, a direct current dwell wave, straight alternating at a very high frequency of oscillation, surging alternating, and an alternating dwell wave.

No.	Code	Price
2372	Complete with connecting cable and stand as illustrated	\$495.00

Ask for descriptive pamphlet Form No. 1251

The Fischer Junior Portable Diathermy Apparatus

No. 2140. Fischer Junior Model "Y" Portable Diathermy Apparatus, with connecting cord and plug, ready to attach to the 110-volt, 60 cycle alternating current, with no accessories.

Code *Wrathy*.....Price \$125.00

Ask for pamphlet Form No. 985A

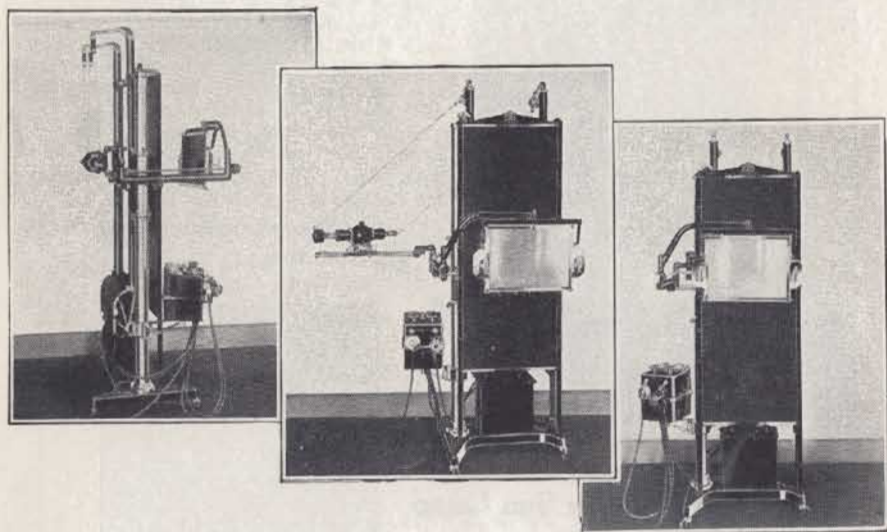

The Specialist's Eye, Ear, Nose and Throat Combination Cabinet

This new equipment is built in a lower cabinet than formerly, as most specialists sit down at this work and desire all the electrical outlets, atomizers, spray controls, etc., as near at hand as possible. These features have all been admirably taken care of on this apparatus.

No.	Code	Price
1203	<i>Neuris</i>	\$530.00

Ask for descriptive pamphlet Form No. 1007A.

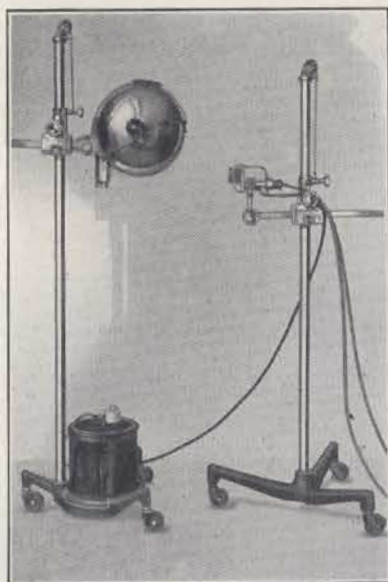

New Fischer Roentgenographic and Fluoroscopic Combination

All roentgenographic and fluoroscopic work can be performed with the finest detail. Note these special features: High tension transformer with 90,000 volts potential; automatic circuit breaker; variable control from 2-inch spark gap up to full capacity of radiator type Coolidge tube; bakelite panel; both horizontal and vertical shutters; accurate milliamperage meter and volt meter; timer; foot switch; both magnetic and auto transformer types of controls; compactness affording the greatest economy of floor space; 12x16 finest quality fluoroscopic screen; heavy lead glass protection; fine focus Coolidge tube, covered with heavy lead glass shield; stereoscopic tube shift and tilt; the entire assembly mounted on free-rolling ball-bearing casters.

Combination Unit — Alpine Sun and Kromayer Lamps

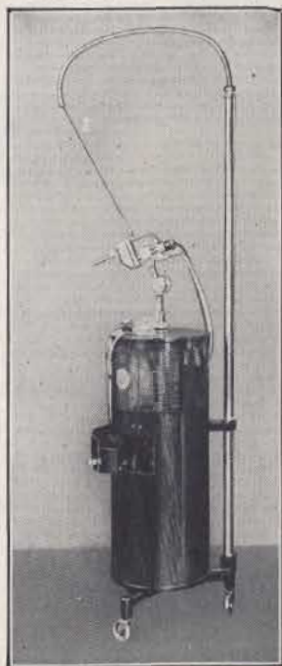

No.	Code	Price
1422	Midst	\$795.00

By far the greatest effect of the sun's rays is due to the ultra-violet, but a more intense producer of ultra-violet rays is the quartz lamp. Here the rays are always available, always constant, and can be administered in quantity to give the desired results.

Both the Alpine Sun and Kromayer Lamps are producers of ultra-violet rays, that give the maximum intensity for therapeutic procedure.

Send for descriptive pamphlet

Prices on Hanovia Equipment are
F. O. B. Newark, N. J.

The Alpine Sun Lamp

No.	Code	Price
1400 Mounted on Mobile Base	Meiny	\$140.00

Following our policy, this new model Alpine Sun Lamp is the outcome of observations and careful studies made of the use of the quartz lamps in the hands of the physicians. This apparatus is so constructed that it increases the efficiency of such work, making it more convenient to manipulate, and more durable.

Send for descriptive pamphlet.
Prices on Hanovia Equipment are
F. O. B. Newark, N. J.

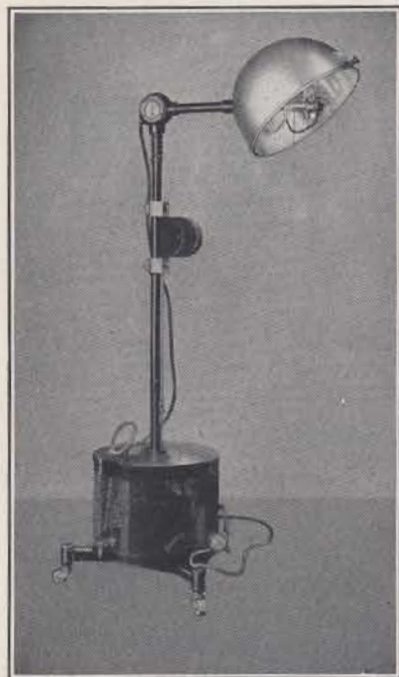

Kromayer Lamp — Portable

(Self-Contained Unit)

No.	Code	Price
1395	Wallet	\$615.00

Cooling system is contained within the standard, making outside water connections unnecessary. In the alternating current lamp the transformer is also contained in the standard. Self-suspending burner permits of free manipulation.

Send for descriptive pamphlet

The "Luxor" Model Alpine Sun Lamp

The definite results accomplished through the use of quartz light therapy by the medical profession in treating disease, has made it patent that a quartz lamp be made for the patient's use in carrying out the treatments as prescribed by the patient's physician in his own home.

The Patient's Model Luxor Lamp is a very simple, compact, self-contained unit embracing many convenient devices and insuring flexibility in all usages, that may be prescribed for it, by the patient's physician.

Home Model Alpine Sun Lamp

This new Home Model Alpine Sun Lamp has all the high mechanical excellence, all the precise controllability and simplicity of design, characteristic of Hanovia equipment. Exactly the same scientific care is exercised in its manufacture, and it is subjected to the same rigid tests. It is of lower intensity than that of the professional models—it is smaller in size, and may be set upon a table or desk. It is very light in weight, and is truly portable.

No.	Code	Price
1434	Home Model Alpine Lamp—110-60 A. C..... <i>Altome</i>	\$129.00
1435	Home Model Alpine Lamp—110 D. C..... <i>Dirome</i>	129.00

The Kromayer Ultra-violet Lamp

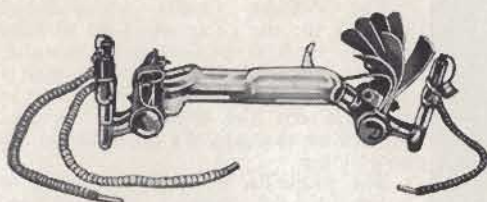

No.	Code	Price
1418	Micro	\$495.00

This type presents a convenient and intense source of ultra-violet rays, with features and ability to function, far surpassing any other apparatus of similar purport.

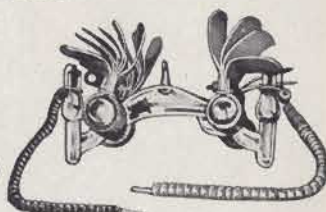

Send for descriptive pamphlet.

Reserve Burners for Hanovia Alpine and Kromayer Lamps

Alpine Sun Lamp Burners

Alternating Current

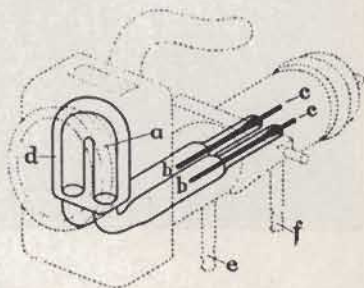

Direct Current

The Alpine Sun Lamp Burners have been regarded for many years as the most efficient type of quartz lamp burners manufactured. They are of the entire quartz mercury anode type.

Kromayer Burners

The Kromayer Burner is of the entire quartz mercury anode type. Its longer life and lower operating cost in comparison with other burners have been conclusively proved.

A service which is distinctive with HANOVIA is the repairing and exchanging of worn out or injured burners at a very nominal cost.

Price List

No.		Code	Price
750	Alpine Sun Lamp Burner (either 90-120 or 200-240 volt, 60 cycle alternating current).....	<i>Wildly</i>	\$200.00
752	Kromayer Burner (either 90-120 or 200-240 volt, 60 cycle alternating current) in case, complete.....	<i>Wimple</i>	255.00
756	Alpine Sun Lamp Burner for direct current (90-120 or 200-240 volts).....	<i>Winery</i>	128.00
758	Kromayer Burner for direct current (90-120 or 200-240 volts) in case, complete.....	<i>Witily</i>	175.00
	(For other than 60 cycle, add \$50.00 to prices.)		

Hanovia Alpine and Kromayer Burner Repairs

These burners may be repaired or exchanged at the following prices:

A. C. Alpine Burner Repair.....	\$ 78.00
D. C. Alpine Burner Repair.....	60.00
A. C. Kromayer Burner Repair.....	110.00
D. C. Kromayer Burner Repair.....	90.00

(These prices apply in all cases where all parts of the old burner are returned.)

Prices on Hanovia Equipment are F. O. B. Newark, N. J.

CARBON ARC LAMPS

We have a complete line of Carbon Arc Lamps, for ultra-violet, visible and infra-red radiation.

Details will be sent you on request.

The
Model
"O"

The Fischer Twin Carbon Arc Lamp Model "O"

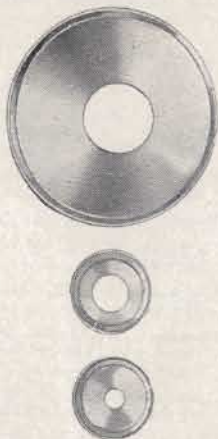

which delivers as much Ultra-violet, Visible and Infra-red radiation as any carbon arc lamp now on the market operating on a lighting circuit—and yet at a price of only \$59.50—with installments if you wish! Will operate equally well on alternating or direct current.

A new therapeutic lamp producing a spectrum of infra-red, visible and ultra-violet rays . . . epoch making in design, in efficiency and economy. Localizing Cones as illustrated, furnished if desired.

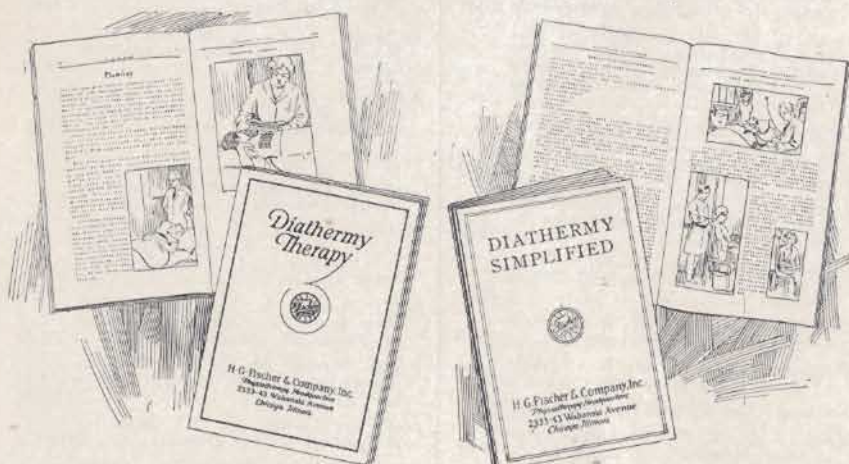

No. Price

2286 Model "O" Twin Carbon Arc Lamp, including 12 "C" Ultra-violet Carbons, 2 pair of Eye Protecting Goggles, Protection Screen and Connecting Cord. Code *Twinom* \$59.50

2291 Set of 3 Localizer Cones consisting of the holder with 4-inch opening and the 2 auxiliary cones reducing to 1 inch and 2 inches, respectively. Code..... *Setcon* \$10.00

Informative Booklets on Diathermy

Diathermy Therapy

106 pages of standard technics, covering the various conditions in which Diathermy is indicated. Profusely illustrated. Price, \$1.00.

The Story of Diathermy

The history, theory and practice of this new branch of medical science. No charge.

Available Reprints on Various Physical Therapy Subjects

(Alphabetically by Author)

PLEASE NOTE: Our Research and Reprint Department is maintained for the benefit of physicians and the advancement of physical therapy. All reprints are taken from authoritative publications. Original manuscripts are often included in these reprints. Naturally there is considerable expense involved. Therefore, we ask you to enclose stamps at the rate of 5c for each reprint desired. This department operates without profit and your cooperation will not only enable us to offer more varied and better reprints, but will be sincerely appreciated.
